PART TWO: AGING BUILDINGS

HAIL AND WATER WREAK HAVOC ON FINE ARTS BUILDING

Reporters
Andrea Bode, Malyssa Reed, Andrew Smith

Sul Ross State University reaches a landmark in its history this year as the institution reaches its 100th birthday. The fact that our remote university in the Big Bend of West Texas has survived a century is an achievement worth celebrating. But even as we celebrate, we acknowledge that age—and aging—brings its own problems.

Those who spend time in the Francois Fine Arts and Communication building (FAB) may have noticed the disrepair there: when it rains, the roof leaks, leaving standing water pools. Water damage has caused ceiling panels to rot away and tiles to become broken.

A 2014 hail storm is to blame for damaging the roofs of most buildings around campus. Scott Grubitz, Director of Facilities, Planning and Operations, is restarting the process of getting the roofs fixed, beginning with the FAB.

“We started trying to make improvements on the buildings and found out that what they have outlined here in repairs doesn’t necessarily cover all of the leaks,” he said. “That’s typical with a lot of roof work, that there is usually this kind of give-and-take as these things start and that didn’t really happen. We have to get this whole process started again and Fine Arts is the building we are going to start on. That’s all coming.”

The question after that is, where does the money come from? According to Grubitz, insurance claims will be used to cover the repairs. He is also looking for ways to guarantee that enough money is available.

“The other good news is that there are some tax credits available from different historical groups,” he said. “That’s the other thing I am trying to track down now. If we come up short on our insurance money because of time or scope or something else, we are hoping to get some credits there.”

Dr. Esther Rumsey, Fine Arts and Communication Department Chair, Director of International Studies, and communication professor, expressed her concern for the state of the FAB.

“The biggest problem really is the general constant disrepair of the building,” she said. “There are not enough Physical Plant workers to service the whole school and we keep getting fewer because of budget cuts. If the budget is cut, we have to make the decision between keeping faculty and staff, or investing in fixing the building.”

In the past school year, the university experienced a 30 percent cut in funding.

“A few years ago the basement flooded and exposed asbestos. We had to have the entire basement closed off and abated. The roof hasn’t been fixed in at least 17 years, and the kind of roof that we have needs to be regularly repaired and maintained,” Rumsey said. “One of my biggest concerns is the state of the foundation. A few years ago when the basement flooded, it rotted part of the enclosure of the foundation underneath the Studio Theatre; because of resources or something the only thing done was the hole was filled in with rocks and dirt.”

Because of the leaks in the ceiling, floor tiles have been broken and, instead of being replaced, were covered with rugs. When asked why tiles were not replaced, Eddie Natera, Assistant Director of Physical Plant, said that it was possible there is asbestos in the glue under the tile. Asbestos has to be abated by certified individuals and the resources needed to bring them in are not yet available. Natera could neither confirm nor deny the presence of asbestos on the upper floors of the FAB.

It goes without saying that an old building will inevitably have problems. For instance, the heating and cooling system is outdated and the parts are no longer made. As a result, Physical Plant employees have to make the parts themselves or find old systems and retrofit their parts.

Carol Fairlie, art professor, said, “Greg [Professor of Ceramics and Sculpture, Gregory Tegarden] often teaches with no AC, heat or hot water in the ceramic studio. I understand the problems we have inherently with an old building and no money to fix it up. Our Physical Plant is fabulous at making parts for our air handler that are no longer made anymore, so you know heating and cooling is problematic.”

NEXT ISSUE: What can—and should—we do?
NEW MINOR
RECREATION MINOR AVAILABLE TO STUDENTS

Rainey Miller

Sul Ross State University now offers Recreation as a minor. Dr. Christopher Herrera, Assistant Professor of Kinesiology and HHP (Health and Human Performance) Program Coordinator, and Dr. Jim Hector, Chair of the Department of Kinesiology and Human Performance, are setting up the new program.

Outdoor recreation courses have a unique format that provides for personal development, team-based leadership skills, and improving health and fitness across all age groups. Students of any major can earn a minor in recreation. Classes are designed to be half theory, half skills-based; hands-on learning will take place during field trips to places like Balmorhea, Big Bend National Park, and Big Bend Ranch State Park.

The first class, Recreation and Leisure Services (KES 2311), rolled out this semester. Leisure and Outdoor Recreation (KES 2330) will follow in the spring of 2018. Both these three-hour sophomore-level courses have no prerequisites, and are available to all students.

Two more courses, River Recreation and Water Safety (KES 3316) and Mountain Recreation and Safety (KES 3318) will be offered fall 2018 and spring 2019, respectively; both require KES 2330 as a prerequisite. Students will even have the opportunity for recreation internships in the Big Bend region, perhaps through the state park, national park and local outfitters.

The gear’s already in place. Kayaks, stand-up paddle boards, harnesses and helmets wait for students in the Gallego Center, and it’s ready for action. Currently, the gear is only available for students enrolled in recreation courses, but this may change in the future.

I hope that we get to the point where we can actually check [the boats] out to students,” said Herrera.

The ultimate goal is to offer a major in recreation. With six new recreation courses being offered in the coming semesters, Sul Ross is well on its way to achieving it.

The ultimate goal is to offer a major in recreation. With six new recreation courses being offered in the coming semesters, Sul Ross is well on its way to achieving it.

PREHISTORIC STURGEON STUDY
GRAD STUDENT GETS SUMMER USGS INTERNSHIP

Steve Lang

Sam Burch’s summer carried him 15,000 miles through 17 states, likely much farther than his research subject travels in a lifetime.

Burch, Alpine, a Sul Ross State University graduate student in geology and research technician at the Rio Grande Research Center (RGRC), was selected for a prestigious U.S. Geological Survey hydrology-based internship this past summer. He worked with the Columbia Environmental Research Center (CERC), based in Columbia, MO, and traveled the Missouri River Basin and its tributaries studying and mapping river modifications (including man-made channels and dams) and its effect on the pallid sturgeon.

More significantly, Burch has used most of the equipment and technology employed this past summer at the RGRC while mapping portions of the Rio Grande.

“I was performing many of the same tasks and using the same stuff [equipment], just on a different scale,” said Burch. He cited Jesse Kulsch, lecturer in geology, for his internship. “Her recommendation was the sole reason I was accepted for the program in the first place.”

“Sam had four interviews for the USGS internship and was the top choice of three of the four offices he interviewed with,” said Dr. Kevin Urbanzczk, RGRC Director and Sul Ross professor of geology. “He interned with major USGS research centers doing the same things with these organizations that he did here, using the same state-of-the-art equipment. This internship speaks highly of the work we do at the RGRC.”

During the summer, Burch studied fish and aquatic habitats throughout the Missouri River Basin, from Montana’s Yellowstone River to the confluence of the Missouri and Mississippi from St. Louis, in Nebraska and in the Ozarks, all to study the pallid sturgeon. The prehistoric fish has been designated as an endangered species since 1990.

Burch’s research included studying channel modification, primarily by the U.S. Corps of Engineers, to determine effects on the pallid sturgeon from spawning to maturity. “Our studies included determining if side channels in the river would help the eggs and the embryos reach maturity,” he said.

“Sam worked from cabin boats and jet boats, while we use canoes [on the Rio Grande],” said Urbanzczk, “but equipment-wise, we [RGRC] have used everything but multi-beam sonar. His Sul Ross experience equipped him well for this experience.”

While this past summer’s travels broadened his landscape, Burch found his way to Alpine in circuitous fashion. He grew up in Florida near Orlando, but spent summers in the Big Bend, as his father, Scott, owns a ranch here. He received his Bachelor’s degree at Appalachian State University, Boone, NC.

Burch, whose RGRC experience included assessing sandy-bar conditions through Boquillas Canyon, hopes to continue his aquatic research upon graduation.

“As long as I can stay on rivers, I’m good,” he said.

MUSICAL AUTOBIOGRAPHY
MOLLY FERGUSON WINS TEJANO IDOL COMPETITION
Contributor
Steve Lang

Molly Ferguson's latest venture in musical self-discovery may pay lucrative dividends. The Sul Ross State University senior and Presidio native won the 2017 "Tejano Idol" competition Sunday, Oct. 1, sponsored by the Austin Tejano Music Coalition.

Ferguson's winning rendition of Un Golpe Traidor (Treacherous Blow) earned her an invitation to red-carpet treatment at this year's Tejano Music Awards on Oct. 21 in San Antonio. After that, the Sul Ross music education major has an opportunity to pave her own discovery may pay lucrative dividends. The Sul Ross university band and is adept at guitar, bass guitar, and percussion and keyboard instruments. She also helped to re-organize the campus Ballet Folklorico group.

Ferguson lives in a musical family. Her mother Lucy is the music director for Presidio Middle School and high School, and her father John performs with Molly in two bands, the Resoratners and Mariachi Santa Cruz. Her brother Max is an electronic musician. Molly sings in the Sul Ross Concert Choir, plays percussion in the university band and is adept at guitar, bass guitar, and percussion and keyboard instruments. She also helped to re-organize the campus Ballet Folklorico group.

Her vocal talents drew praise from her voice instructor, Dr. Donald Callen Freed, Sul Ross professor of music.

"Molly has been my student in choir for seven semesters and in voice this semester. She is a quick study and has come far in singing technique, stage presence and interpretation," Freed said. "She really knows how to 'sell' a song, no matter the style in which she is singing."

"My lessons with Dr. Freed and singing in the choir has really helped me gain these skills," said Ferguson. "My experiences at Sul Ross have definitely prepared me to be a musician in today's musical society. I have been able to study guitar and I am blessed with a great vocal teacher."

"I have always had a dream to be a singer, and this [Tejano Idol] opportunity came out of the blue," she said. "I planned to graduate in May with a teaching degree in music. However, my dad's advice in mind always: one, to be a good person, and two, make the world a better place."

"I said, 'All the way', without really knowing the answer." She added that she plans to develop some original material with the help of several Sul Ross-based musicians, including her brother Max.

"I was confident, but winning was not my [ultimate] goal. I entered to meet new people and learn about a new music culture; Tejano music is not that prevalent in Presidio and this area." Ferguson sang Amor Eterno (Eternal Love), by Juan Gabriel, with her own guitar accompaniment as an audition for the competition. She was assigned Un Golpe Traidor as her competition number, based on her voice range, and practiced the song for about a month. She competed with 15 other vocalists, and was named one of five finalists.

"I performed second to last and I had a chance to see how everybody else did, including the judges' critiques," said Ferguson. "I had never performed at this level before, and there were some nervous moments, mostly worrying about remembering the lyrics ... As a finalist, I performed last, and was more relaxed."

She said she had not yet watched the video of her winning performance, saying, "I'm not ready for it."

"Overall, this was a very special feeling: I was doing something I had a passion for, because this could really make a difference in my career," Ferguson said, adding that another judge asked her, "How far are you going to go with this?"

"I chose this play because it addresses racism at the living room level. 'AT THE LIVING ROOM LEVEL' is one of only two plays to win Pulitzer, Tony and Olivier awards. The play begins its two-week run Friday, Oct. 20 at Sul Ross' Studio Theatre.

Directed by Marjorie Scott, assistant professor of communication and theatre, the play is set in a house on Clybourne Street—the same house the Younger family purchases in Lorraine Hansberry's award-winning play, "A Raisin in the Sun" (1959).

"Clybourne Park" tells the story of a home and a neighborhood, as well as the sense of history and entitlement people hang on to in the ever-shifting physical boundaries and demographics of American culture.

"I chose this play because it addresses racism at the living room level, and while it's very political, it's also very personal," Scott said. "We don't live in a post-racial America yet, but maybe plays like this can bring us closer to the dream, faster, by helping us discuss the issue more honestly."

The highly-engageing work provides a unique perspective, spanning a fifty-year period of one neighborhood in America. The central character in the play is the house itself, and its personal involvement in transforming the fictitious Clybourne Park neighborhood in both 1959 and 2009.

"Norris stews his characters, both black and white, in their own neurotic juices, making terrific comedy out of his clinical dissection of hypocrisy. His strength and his value is that he finds a way, through his observational humor, to allow the unsayable to be said and the hidden to be seen," wrote John Lahr of The New Yorker.

"I don't think our job as playwrights is to solve the world's problems," Norris, the playwright, told the Lincoln Center Review in 2012. "It may be to identify what some of them are, but we're not politicians. My ideal audience response is to have them come out of the theater saying, 'I don't know what's right anymore. I used to think I knew what was right, but I'm not sure I do.'"

Sul Ross students are admitted free with a valid student ID. Tickets are $10 for adults and $8 for seniors. Season tickets are also available.

For more information, call 432-837-8218, or visit www.sulross.edu/theatre.
ONCE UPON A TIME IN LOBO LAND
HAPPY HOMECOMING,
SUL ROSS!

Glory days of yesteryear, including princesses and dragon-slayers, highlight "Once Upon a Time in Lobo Land," Sul Ross State University’s Homecoming 2017 celebration, Oct. 23-28.

Sleeping Beauty may re-awake and Lobo enthusiasts will Brand the Land and wear red as part of the weekend events. Sul Ross junior Mason Fleming, Friona, submitted the winning Homecoming design, as chosen by a student vote.

Fifteen candidates, eight women and seven men, will seek the titles of 2017 Sul Ross homecoming queen and king. Coronation will be held at halftime of the Lobos-East Texas Baptist University football game Saturday evening, Oct. 28.

Queen candidates, their hometowns and sponsors are: Katya Gonzalez, Eldorado, Spanish Club; Samantha Cardenas, Lubbock, Student Support Services, Breeann Burgess, Woodlake, CA, Collegiate FFA; Abigail Escalada, Midland, Sully Productions, Dafne Rodriguez, Sturges, Woodlake, CA, Collegiate FFA; Abigail Cardenas, Lubbock, Student Support Services; Breeann Queen candidates, their hometowns and sponsors are: Zechariah (Zack) Roberson, Houston, Black Students Association; Sir Daniel Turner, San Antonio, Black Students Association; Selena Garcia, Alpine, Recreational Sports; Malyssa Reed, Katy, Music Club; Executive Director's Scholarship; Kendal Hartman, Iraan, King candidates are: Javier Garcia, San Elizario, Business Club; Darrian Doederlein, Lamesa, Business Club; Dafne Rodriguez, Escajeda, Midland, Sully Productions; Malyssa Reed, Katy, Music Club; Kendal Hartman, Iraan, King candidates are: Javier Garcia, San Elizario, Business Club; Darrian Doederlein, Lamesa, Business Club; Dafne Rodriguez, Escajeda, Midland, Sully Productions; Malyssa Reed, Katy, Music Club.

Campaigning by queen and king candidates began Monday (Oct. 16) and continues through Friday, Oct. 20. Preliminary voting will be conducted via Blackboard. Finalists will be announced Monday, Oct. 23, during an 8 pm show by comedian Michael Kent in the Morgan Theatre of Alpine.

This year’s royalty will be crowned by the 2016 king and queen, Gabriela Torres González and Vince Apodaca. The new royalty will receive crowns, diamond watches and scepters donated by Anju’s Jewelry and Rangra Theatres of Alpine.

A full week of adventures in magic kingdom activities are planned, including daily student events, costume themes, office door decorating, whitewashing and lighting the Bar-SR-Bar. A Friday (Oct. 27) evening parade and pep rally are scheduled.

Alumni events are also planned. Detailed schedules of homecoming and related Alumni Association activities, as well as registration information are found online at http://www.sulross.edu/homecoming.

SULLY’S SHOWCASE
PROSPECTIVE LOBOS VISIT ALPINE CAMPUS TOMORROW

More than 300 new faces will be seen on campus tomorrow (Oct. 14) as prospective Sul Ross State students travel to Alpine for this semester’s Sully’s Showcase, where they’ll learn the ropes about the university and what the Sul Ross community has to offer.

The biannual event is sponsored by the Office of Enrollment Management’s New Student Programs. The showcase begins with check-in at 8:30 am in the Gallego Center. Prospective students and their families will have the opportunity to tour the university, meet with faculty and staff and receive information about admissions, financial aid and campus life.

A Sul Ross student club and department showcase begins at 9 am on the Gallego Center’s second floor mezzanine. An Academic Showcase will be featured from 10:30 am-noon, organized by the respective Colleges (Agricultural Natural Resource Sciences, Arts and Sciences, and Education and Professional Studies). Each academic department will present to students interested in that particular field of study.

After lunch in the University Center, a closing ceremony and $1,000 scholarship raffle will be held. Main campus and residential living tours will be conducted from 2-4 pm.

The timing of this semester’s showcase allows visitors the opportunity to attend several scheduled Sul Ross events. The Big Blend Comic Con is slated for 1-5 pm at the Wildenthal Library; the Presidio, Buckle Bar and Hell’s Gate are open; and at 6 pm, the Sul Ross Lobos battle Hardin-Simmons University in a American Southwest Conference football game at Jackson Field. Tailgating begins prior to the game on Lobo Lane.

“Sully’s Showcase offers visitors an up-close opportunity to experience the unique Sul Ross environment,” said Patrick Clingman, director of New Student Programs.

Although we are nationally ranked for affordability, we offer far more than a ‘good deal.‘ Sul Ross faculty and staff are willing to go the extra mile to know you as an individual and to help you succeed, in and out of the classroom.”

For more information, contact Clingman, pclingman@sulross.edu or 432-837-8342.

GUNNER GARDNER
ASC COMMUNITY SERVICE ATHLETE OF THE YEAR

Andrea Bode

Recent Sul Ross State University graduate and four-year tennis letterman Gunner Gardner was selected 2016-2017 American Southwest Conference's Community Service Athlete of the Year.

Gardner received his award Sept. 23 at SRSU’s first home football game. Amy Carlton, ASC Commissioner, and Dr. Bill Kibler, Sul Ross President, made the presentation.

In addition to being a member of the university men’s tennis team, Gardner was active as Rotaract Club president, Student Ambassador, Sul Ross Skyline news magazine co-editor, Student Athlete Advisory Committee, Phi Alpha Theta national history honor society, and Pi Sigma Alpha, national political science honor society.

His community service projects as Rotaract president included regular volunteering at the West Texas Food Bank, and organizing fundraisers supporting those affected by the Nepal earthquake, Flint Michigan Water Crisis, and more.

Gardner was an active supporter of the Breast Cancer Research Foundation, Bill and Melinda Gates Polio Plus Foundation and Domestic Violence Awareness Month. He was instrumental in organizing a prayer vigil after the 2016 disappearance of fellow student Zuzu Verk, and through Rotaract, in collaboration with Student Support Services and the Open Care Plus Foundation and Domestic Violence Awareness Research Foundation, Bill and Melinda Gates Polio Bank, and organizing fundraisers supporting those affected by the Nepal earthquake, Flint Michigan Water Crisis, and more.

Steven Savedra and Jeremy Reed also caught touchdown passes, while Martin ran 62 yards for another score.

At Southwestern, the Lobos rallied from a 27-6 deficit in the third quarter. Jordan Batson ran 37 yards for one touchdown and Davis passed 10 yards to Josh Lopez for another. Eli Lopez added two conversion kicks and two field goals, including a 26-yarder with 11:27 left for a 27-26 lead.

Job Mason returned a fumble 53 yards for Sul Ross’ first score and added a pass interception, while Jakorey Richard set up a touchdown with another pick.

The Lobos host Hardin-Simmons University tomorrow, Oct. 14 at Jackson Field. Kickoff is at 6 pm. The next home game for the Sul Ross football team is Saturday, Oct. 28, when the team takes on East Texas Baptist University to wrap up homecoming week in Alpine.

Volleyball

The Lady Lobo volleyball team seeks to end a lengthy victory drought at the ASC Crossover today (Oct. 13) and Saturday (Oct. 14) in Abilene. Coach Troy Canaba's squad, 2-20 overall and 0-11 in the American Southwest Conference, faces University of Texas-Tyler Friday and Louisiana College and LeTourneau University Saturday.

LADY LOBOS VOLLEYBALL, TENNIS

VOLLEYBALL TEAM SEEKS WINS AT ASC CROSSOVER

The Lady Lobo volleyball team seeks to end a lengthy victory drought at the ASC Crossover today (Oct. 13) and Saturday (Oct. 14) in Abilene. Coach Troy Canaba's squad, 2-20 overall and 0-11 in the American Southwest Conference, faces University of Texas-Tyler Friday and Louisiana College and LeTourneau University Saturday.

Sul Ross fell to University of the Southwest (0-3), McMurry University (0-3), Hardin-Simmons University (0-3), Howard Payne University (2-3), Trinity University (0-3), University of Mary Hardin-Baylor (0-3), and Concordia Texas (0-3) in recent outings. They return home Oct. 20-21 with ASC matches against Hardin-Simmons and McMurry, respectively, in the Gallego Center.

Autumn Kilpatrick and Jordan Scherer lead the attack with 130 and 100 kills, respectively. Kilpatrick has 43 blocks and Scherer 24.

Mirella Thomas has 248 set assists and 16 ace serves, while McKenna Thomas has 211 digs and 14 aces.

LADY LOBOS EDGE USW IN HOME TENNIS MATCH

Victories by Meagan King and Daisy Martinez in singles action and a doubles win from Annette and Melissa Posada paced Sul Ross to a 5-4 women’s tennis win over visiting University of the Southwest Oct. 4.

USW claimed three singles and one doubles match, but the Lady Lobos won the number six singles and number three doubles matches by default.

LADY LOBOS FOOTBALL, BASEBALL

LOBO GRIDDERS DIVIDE ROAD GAMES ON LAST-SECOND FIELD GOALS

Last-second field goals provided a narrow victory and caused an equality-narrow loss as the Lobo football team divided a pair of American Southwest Conference road games.

Eli Lopez’ 37-yard field goal at the gun lifted Coach John Pearce’s team to a 34-31 win over Louisiana College Sept. 30. A week later, Southwestern’s Luke Fierst booted an 18-yard three-pointer to lift the Pirates to a 29-27 triumph.

Sul Ross, 3-2 overall and 2-2 in ASC play, hosts Hardin-Simmons (4-1, 3-1 ASC) in a 6 p.m. battle Saturday (Oct. 14) at Jackson Field. The Cowboys, ranked fifth in the NCAA Division III poll, lost 17-7 to top-ranked Mary Hardin-Baylor last week.

James Davis tossed three touchdown passes while Markase Martin’s 41-yard kickoff return set up the Lobos’ winning drive in the final seconds against the Wildcats. Davis’ six-yard touchdown pass to Jordan Batson with 8:11 to play gave the Lobos a 31-28 lead before Chris Sebren’s 29-yard field goal with 29 ticks left tied the score.
LADY LOBOS SOCCER

SOCCER TEAM 2-1-1 IN RECENT MATCHES

Sul Ross posted two wins and a tie in four recent ASC matches, lifting their season record to 5-3-1, 3-2-1 in conference action.

UT-Tyler’s first-half goal provided all the scoring in a 1-0 home setback Oct. 7. Lauren Ebbs’ 11th goal of the season lifted the Lady Lobos to a 1-0 victory over the University of the Ozarks Oct. 5 in another home match.

Ebbs notched the tying goal in a 1-1 double-overtime standoff against LeTourneau Sept. 30. Two days earlier, goals by Ebbs and Britney Berumen gave Sul Ross a 2-1 win at East Texas Baptist.

Coach Marquise Muse’s team played a road match at Belhaven yesterday (Oct. 12) and travels to Louisiana College tomorrow (Oct. 14). The Lady Lobos return home to meet Howard Payne University Thursday, Oct. 19 and University of Texas-Dallas Saturday, Oct. 21.
