#### ADMINISTRATOR'S STATEMENT

83rd Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

#### 741 Sul Ross State University Rio Grande College

Following the instructions provided, I am pleased to submit the Legislative Appropriations Request for fiscal years 2014 and 2015 for the Sul Ross State University -Rio Grande College. Our baseline request is within the limit of 100 percent of the funding for fiscal years 2012 and 2013, as directed by the Legislative Budget Board and the Governor's Office of Budget, Planning and Policy. Our total request as presented for non-formula strategies and exceptional items is above the 2012-2013 fiscal years amounts for non-formula items. Two exceptional item requests are presented for funding to implement a nursing program to serve the Middle Rio Grande Border Region and for funding to cover the gap between appropriations for lease of facilities and projected costs .

For thirty seven years, Sul Ross State University - Rio Grande College has served the Middle Rio Grande Border Region of Texas in partnership with Southwest Texas Junior College (SWTJC). The first two years of college work are provided by SWTJC and the Rio Grande College (RGC) provides the junior and senior years plus graduate programs in several academic areas including business administration, education, criminal justice, biology, and various liberal arts disciplines . Sul Ross State University - Rio Grande College does not own buildings in the region . All facilities and related services are leased from the SWTJC. Most buildings are of recent construction and provide state of the art facilities for the RGC students and faculty. Faculty and students drive between sites in Del Rio, Eagle Pass and Uvalde as well as utilize distance learning facilities and smart classrooms for course work and the other activities of the college . This arrangement has worked effectively for the past 37 years and has provided an affordable and efficient method of higher education in this critical region of the state .

Sul Ross State University, including Sul Ross State University - Rio Grande College, is a regional university serving the educational needs of approximately two - thirds of the border region of Texas with Mexico. Our service region extends approximately 600 miles from Webb County on the south to El Paso County on the north and encompasses approximately 61,000 square miles. The population of this vast region approximates 416,908, over 64 percent of whom are Hispanic. The demographic projections indicate that this percentage will continue to increase steadily during the foreseeable future . Sul Ross State University - Rio Grande College serves the southern portion of the Sul Ross State University service region . About 89 percent of the students at Sul Ross - Rio Grande College are Hispanic and 74 percent are first generation college students. More than 65 percent of our students have demonstrated financial need .

Sul Ross – Rio Grande College continues to maintain its commitment to serving the region. We are proud to also begin a new 10K Scholars Program in partnership with SWTJC to provide a clear pathway to a four-year bachelor's degree in high demand math and science majors. Through this program, qualifying students will receive a bachelor's degree for \$10,000 with the assistance of scholarships for an affordable and quality education.

Sul Ross State University serves the population of our vast service region with a variety of programs and degrees designed to meet the needs of the region. According to Hispanic Outlook in Higher Education Magazine, Sul Ross Ranks 80th in Master's Degrees awarded to Hispanics. Additionally, The Texas Higher Education Journal has listed Sul Ross – Rio Grande College in the top five schools for producing Latino graduates in Texas .

SRSU - Rio Grande College is a leader in the delivery of courses via distance learning technology. Many administrative services are economically and effectively provided to the Rio Grande College through the main campus in Alpine, thus avoiding duplication at the remote sites . There are no other institutions of higher education in the region and Sul Ross is serious about our responsibility, mission, and obligation to provide quality educational opportunity in this vast border region of Texas. To this end, SRSU - Rio Grande College works with the Southwest Texas Junior College to ensure new state of the art facilities for the exclusive use of the Rio Grande College students. Lease costs for each year of the 2014-2015 biennium are projected to be approximately \$140,000 above the appropriations received for this purpose in the 2012-2013 biennium those needs have been met thus far from Institutional Enhancement funding . An exceptional item for this is presented in our request. If our appropriation for this is reduced again, we will have to resort to reduction of much needed space .

One opportunity for investment in a future of better health for Texas would be to consider additional support for nursing education . The Texas State Board of

Nursing has determined that the geographic region served by Sul Ross State University - Rio Grande College is substantially underserved. Our nation and state face severe shortages of nurses for hospitals, healthcare agencies, schools, and other medical facilities /offices. Southwest Texas Junior College and SRSU - Rio Grande College are partnering to address this critical community health need . SWTJC is realigning their current LVN and RN programs and through our exceptional item request if funded, Sul Ross State University - Rio Grande College would provide upper level course work to ensure seamless transition to completion of the bachelor's degree. Additionally, the need for primary care health providers prompts the need for an MSN practitioner program for the area as well . The partnership will provide a unique continuity of educational development for these students from entry-level nursing through the Nurse Practitioner level .

Sul Ross State University - Rio Grande College continues to meet identified educational needs in the service region in many ways. The RGC has also met the economic development needs of the region through its Small Business Development Center. Exempting the Center from the appropriation exemptions will allow this program to continue serving these needs of the community.

As a Hispanic Serving Institute, Sul Ross – Rio Grande College was also awarded a Title V HSI grant that has increased the number of graduates with knowledge for careers in Science, Technology, Engineering, and Mathematics (STEM). We anticipate that increased enrollment and graduation rates in these areas will assist high technology development throughout the state of Texas.

Sul Ross - Rio Grande College has greatly improved ExCET performance and pass rates for its teacher certification students and now ranks as one of the highest scoring institutions along the border. During the current biennium, we have continued to implement recommendations from market research, adding new programs and strengthening others. These activities reflect the needs of the service region and the State. Most recently, new state of the art smart classrooms have been installed in all of the Rio Grande College sites allowing for the delivery of courses with the latest technology. Resources available from the last legislative session have been utilized to meet identified needs of approximately 1,000 students who participate in academic and other activities through this important component of Sul Ross State University. We are focusing resources in the areas of improving teacher preparation, recruiting, retention, and introducing needed programs for the students in the Middle Rio Grande border region.

Resources provided through the last legislative session have been utilized to meet critical needs, but reduction of a high level of service experienced in recent years have had a severe impact on our ability to continue. A ten percent reduction on the heels of an approximate 18 percent cut this past year would be devastating. Such a loss in funding could force Sul Ross State University to close academic and student service programs. It also would almost certainly cause faculty and staff work force reductions and severely impact our student population which is predominantly Hispanic . Declining populations in rural Texas, adverse agricultural environments, employment opportunities in the oil fields, and continued budget reductions are emphasizing the need for strong retention and recruiting programs . We are committed to focusing resources in these areas as much as possible to achieve needed enrollment growth .

Sul Ross State University is in support of the changes to the Article IX Riders included in the Texas State University System's Legislative Appropriations Request . Along with other higher education institutions, we believe these changes will clarify, correct, eliminate duplication of, or more accurately reflect current requirements .

#### 741 Sul Ross State University Rio Grande College

Sul Ross State University Rio Grande College is committed to providing educational opportunity for the vast rural underserved Middle Rio Grande region of Texas . We are deeply grateful for your continued support for our programs and for your efforts on behalf of higher education in Texas . Once again it is my pleasure to update you on our programs and services at Sul Ross Rio Grande College and to present our request . Thank you in advance for your consideration for our university and our community.

#### STRATEGY DESCRIPTION AND JUSTIFICATION:

The Instruction and Operations Formula provides funding for faculty salaries, departmental operating expense, library, instructional administration, research enhancement, student services and institutional support. The funds are distributed on a weighted semester credit hour basis. The rate per weighted semester credit hour is established by the Legislature each biennium.

#### EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

(1) - Formula funded strategies are not requested in 2014-15 because amounts are not determined by institutions.

## STRATEGY DESCRIPTION AND JUSTIFICATION:

The Infrastructure Support formula distributes funding associated with plant - related formulas and utilities. This formula is driven by the predicted square feet for universities' educational and general activities produced by the Coordinating Board Space Projection Model. The portion of the formula related to utilities is adjusted to reflect differences in unit costs for purchased utilities, including electricity, natural gas, water and wastewater, and thermal energy.

#### STRATEGY DESCRIPTION AND JUSTIFICATION:

This is a non-formula strategy created by legislative initiative that provides funding for the lease of facilities to be used for offices and classrooms. Because Sul Ross State University - Rio Grande College leases all its space with turn-key agreements, its capital assets are small in comparison with other agencies. Leasing needed space is the most economical option for the RGC to deliver high quality instruction at all of its sites.

## EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

Sul Ross State University - Rio Grande College leases space from the Southwest Texas Junior College (SWTJC). SWTJC has constructed new facilities in each location for the exclusive use of the Rio Grande College. These facilities greatly enhance the University's ability to provide service to its increasing student population and its needs. The university has utilized Institutional Enhancement and E&G Infrastructure support funds to meet the funding shortfalls . However appropriation reductions, increases in enrollment and the related need for new or enhanced programs necessitate the use of the Institutional Enhancement funding in those program areas . The severe appropriation reductions may require the reduction of space in the future which would significantly affect our ability to provide services .

Increasing student expectations and needs require the utilization and maintenance of quality facilities and infrastructure. This funding is critical to small institutions and particularly to SRSU – Rio Grande College. SRSU-RGC owns no facilities. Instead all space is leased from the Southwest Texas Junior College. These leases include all costs of operation. The funds generated by the infrastructure support formula do not provide sufficient funding to cover all of these costs. The costs related to providing these facilities is a critical burden on the operating budget of SRSU-Alpine. This strategy helps supplement the funding generated by the infrastructure support formula.

(1) - Formula funded strategies are not requested in 2014-15 because amounts are not determined by institutions.

## STRATEGY DESCRIPTION AND JUSTIFICATION:

This is a non-formula strategy that provides funding for the operations of the Small Business Development Center at Sul Ross State University - Rio Grande College. The mission of the Center is to improve economic conditions in the region by helping establish new businesses and improve existing ones, in partnership with the Middle Rio Grande Development Council. This region is sparsely populated and includes people with some of the lowest per capita incomes in the state. In cooperation with the UT San Antonio Small Business Development Center and the Middle Rio Grande Development Council, Rio Grande College operates a Small Business Development Center in Eagle Pass, Del Rio, Uvalde, and Carrizo Springs with on site personnel to assist existing businesses, develop proposals for new business start ups, provide training for business operators, and assist individuals in preparing for new business loans. These services are available to the entire Middle Rio Grande region.

## **DESCRIPTION / JUSTIFICATION:**

The Texas State Board of Nursing has determined that the geographic region served by SR - Rio Grande College is significantly underserved, meaning there are frequent shortages of nurses for hospitals, health care agencies, schools, and other medical facilities /offices.Southwest Texas Junior College and SR-RGC are partnering to address this critical community health need. SWTJC is realigning their current LVN and RN programs and SR-RGC will provide upper- level course work to provide seamless transition to completion of the bachelor's degree. Additionally, the need for primary care health providers prompts the need for a MSN practitioner program for the area as well . The partnership will provide a unique continuity of educational development for these students from entry - level nursing through the Nurse Practitioner level .

- (1) (a) Major Accomplishments to Date:
  - N/A

(1) (b) Major Accomplishments Expected During the Next 2 Years:

Sul Ross State University- Rio Grande College Bachelor (BSN) and Master (MSN-practitioner) programs in Nursing will increase. Nurses for hospitals, health care agencies, schools, and other medical facilities will address the critical health care need for the southwest Texas border region.

(5) Consequences of Not Funding:				

This practitioners partnership with the Southwest Texas Junior College would not be possible .

# EXTERNAL/INTERNAL FACTORS:

This partnership would require both start-up funds for consultants to develop the continuous / connected curriculum, admission, and progression processes and faculty / teaching resources to implement the program. Recent budget reductions preclude the use of reserve funds. These programs would have a start-up cycle over a 2-3 year period coordinated with SWTJC to address this critical health care need for the southwest Texas border region. Area hospitals, while supportive and greatly excited about this project, are themselves unable to provide significant financial support due to the geographic region's low per capita income level and the significant revenue stresses resulting form serving this population.

#### **DESCRIPTION / JUSTIFICATION:**

(1) (a) Major Accomplishments to Date:

As of the fall of 2010, Rio Grande College (RGC) became one of only a few in the nation to equip every classroom with the finest available education technology. Because its three campuses are charged to provide higher education opportunities across 13 Southwest Texas counties, RGC seeks to link students and curriculum through remote teleconferencing technologies and Internet courses . Now, RGC's approximately 1,000 students enjoy "SmartClassrooms". Four Distance Learning Centers at each campus provide real-time interaction between a professor and students learning from a distance . All campuses are equipped with two computer labs and writing centers, where students are tutored to master written and oral communication skills . All of these major accomplishments are possible because of low cost, turn key lease agreements between SRSU-RGC and the Southwest Texas Junior College.

(1) (b) Major Accomplishments Expected During the Next 2 Years:

Sul Ross State University-Rio Grande College will continue to deliver high quality instruction at all of its sites . Leasing needed space is the most economical option.

(2) Year Special Item:

## N/A

(3) Formula Funding:

Funding provided through the infrastructure formula is used to help pay for these lease costs but the funds generated are insufficient to fully fund the costs.

(5) Consequences of Not Funding:

Appropriation reductions, increases in enrollment and the related need for new or enhanced programs necessitate the need of additional sources to fund the funding shortfalls. The appropriations reductions may require the reduction of space in the future which would significantly affect our ability to provide high quality services .

## **EXTERNAL/INTERNAL FACTORS:**

Sul Ross State University - Rio Grande College leases space from Southwest Texas Junior College . SWTJC has constructed new facilities in each location for the exclusive need for additional space. SRSU-RGC is utilizing new modern facilities through its building leases, so funding this item at the increased level including the exceptional item request is of critical importance. The amount requested represents the difference between current appropriations and the projected need in 2014-2015.

## B. Assessment of Fiscal Year 2010 - 2011 Efforts to Meet HUB Procurement Goals

#### Attainment:

THIS SAME REPORT APPLIES TO BOTH SUL ROSS STATE UNIVERSITY-ALPINE agency code 756 AND SUL ROSS STATE UNIVERSITY-RIO GRANDE COLLEGE agency code 741. The agency (SRSU) attained or exceeded two of three or 67% of the applicable agency HUB procurement goals in FY 2010. SRSU attained two out of three or 67% of the applicable agency HUB procurement goals in FY 2011.

#### **Applicability:**

The "Heavy Construction", "Building Construction" and "Special Trade Construction" categories are not applicable to agency operations in fiscal year 2010 since the agency did not have any strategies or programs related construction services.

The "Heavy Construction", "Building Construction" and "Professional Services" categories are not applicable to agency operations in fiscal year

2011 since the agency did not have any strategies or programs related to these services.

## **Factors Affecting Attainment:**

As an institution of higher education, SRSU often purchases goods and services for which there are no certified HUB vendors available. In addition, due to the location of SRSU in a remote rural area of Texas, local vendors see no advantage to becoming HUB certified since SRSU will do business with them regardless of certification and they do not generally market their goods/services to the greater Texas area.

## "Good-Faith" Efforts:

The University's "good-faith" efforts to comply with statewide HUB procurement goals per 34 TAC Section 20.13(d):

- Contracted HUB Vendors listed in the CMBL for contract opportunities
- Trained buyers in locating and including HUBs in the bidding process

83rd Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST) Date: 10/10/2012 Time: 11:02:10AM

Agency Code: 741 Agency: Sul Ross State University Rio Grande College

- Encouraged known non-certified HUBs with whom SRSU does business to apply for HUB status

- Attended Economic Opportunity Forums, when budget and schedule allowed

- Ensured that bid specifications, terms and conditions are clearly stated and do not unfairly exclude HUB vendors from participating

#### **1** Workers Compensation Insurance

#### Category: Administrative - Operating Expenses

Item Comment: This strategy provides for the general revenue portion of the Workers Compensation Assessment by the SORM. This reduction represents anticipated residual funding based on recent historical assessment data. SRSU-RGC has implemented strategies which have resulted in less General Revenue funds needed for workers compensation claims. If this funding is reduced and increases in assessment costs are required, Designated Tuition would need to be increased to replace this funding.

Strategy: 1-1-4 Workers' Compensation Insurance

#### FTE Reductions (From FY 2014 and FY 2015 Base Request)

#### 2 Lease of Facilities

#### Category: Administrative - Operating Expenses

Item Comment: 10% SR-Rio Grande College would be required to renegotiate its long standing turnkey lease of facilities from Southwest Texas Junior College. If SWTJC would allow such a renegotiation occur, RGC would have to surrender valuable classroom space as well as office and support space for students which would create further loss of student enrollment.

#### **3** Institutional Enhancement

#### **Category:** Programs - Service Reductions (Other)

Item Comment: This level of reduced funding would result in the reduction of 5 faculty and 3 support staff member. Not only would SR-Rio Grande College's (a Hispanic Serving Institution, primarily a first generation, working adult, college student population) active involvement in "Closing the Gaps" be seriously compromised, particularly in the STEM (math and Science) areas, but reductions in other program areas essential for our geographic service area would be negatively impacted as well. In addition to the 5 faculty and 3 key staff positions, other reductions would be required in essential support funds for Biology, Chemistry, Mathematics, Psychology, Criminal Justice, as well as teacher preparation programs. This level of reduced funding combined with the reductions in previous years would without doubt cause a reduction in enrollment, estimated at approximately 20% of students who are primarily working adults. SR-RGC serves students on three campuses in Uvalde, Del Rio, and Eagle Pass in Southwest Texas. The nearest enrollment alternative would be San Antonio a 1.5 to 3.5 hour drive.

Special Item: 1 Small Business Development Center

1

(1) Year Special Item:

#### (2) Mission of Special Item:

This is a non-formula strategy that provides funding for the operations of the Small Business Development Center at Sul Ross State University - Rio Grande College. The mission of the Center is to improve economic conditions in the region by helping establish new businesses and improve existing ones, in partnership with the Middle Rio Grande Development Council. This region is sparsely populated and includes people with some of the lowest per capita incomes in the state. In cooperation with the UT San Antonio Small Business Development Center and the Middle Rio Grande Development Council, Rio Grande College operates a Small Business Development Center in Eagle Pass, Del Rio, Uvalde, and Carrizo Springs with on site personnel to assist existing businesses, develop proposals for new business start ups, provide training for business operators, and assist individuals in preparing for new business loans. These services are available to the entire Middle Rio Grande region.

#### (3) (a) Major Accomplishments to Date:

Under contract with the Southwest Texas Border Small Business Development Center Network housed at UT San Antonio Small Business Development Center, RGC's Small Business Development Center is headquartered in Eagle Pass and serves the nine counties of the Middle Rio Grande region with offices not only in Eagle Pass, but also Uvalde, Del Rio, and Crystal City. In a historically, economically depressed region, the SBDC has developed proposals and plans for new business start ups, provided management training for new business operators, secured loans for these start ups, and assisted individuals with on - going training and counseling on the different facets of business operations. The RGC SBDC is one of the larger centers in the Southwest Texas Network annually ranks in the top quarter of the ten SBDCs comprising the UTSA-SBDC. Over the past year the RGC-SBDC assisted in the start-up or expansion of 93 businesses resulting in the creation or retention of 302 jobs and an infusion of \$3.55M in capital into the region.

#### (3) (b) Major Accomplishments Expected During the Next 2 Years:

Over the next two years the Center expects to conduct at least 96 training seminars serving nearly 1000 participants. We also expect to assist in the creation of 154 new businesses, the expansion of 40 existing businesses, and the creation or retention of 630 jobs. These initiatives should result in the creation of many new jobs with over \$7.4M in capital infusion. Our counseling efforts will also be expanded to include a possible caseload of 1000 clients receiving over 12,000 counseling hours.

#### (4) Funding Source Prior to Receiving Special Item Funding:

(5) Formula Funding: N/A

#### (6) Non-general Revenue Sources of Funding:

FY 2010 \$81,576 Federal Grant FY 2011 \$81,576 Federal Grant FY 2012 \$81,576 Federal Grant

#### 741 Sul Ross State University Rio Grande College

### FY 2013 \$81,576 Federal Grant

#### (7) Consequences of Not Funding:

This item is not eligible for formula funding. Minority and small businesses in the Middle Rio Grande region would not be able to receive business counseling and would have difficulty in competing for Small Business Administration loans, hampering the region's ability to realize its full economic potential. If additional appropriations reductions become necessary, the Center's ability to assist new businesses in the region will be severely impacted. Service to the region would have to be reduced as the institution has no other funds available to support this.

Special Item: 2 Institutional Enhancement

(1) Year Special Item: 2000

#### (2) Mission of Special Item:

This is a special item appropriation created by the 76th Legislature. This item provided new funding of \$1 million to each Higher Education Institution for each year of the 2000 - 2001 biennium. An additional \$1 million was provided for the 2002 - 2003 biennium. This funding also replaced some previous special items and continues to be a major source of funding for SRSU-RGC.

#### (3) (a) Major Accomplishments to Date:

Continued support for all established academic areas and programs as well as new programs. Technology and related support has been expanded and upgraded for both faculty and students including increased number of computers for student use in laboratories and academic buildings. Upgrades to distance learning technology continued with HD capability added to facilities. Provided funds to supplement lease of facilities costs not covered by infrastructure appropriations thus enabling the SRSU - RGC to continue to provide all modern facilities for use by its students. Distance learning equipment and programs have been funded in part through these funds, which is critical to SR-RGC's unique three campus, one faculty economically advantage strategy for serving college educational needs in our area .

#### (3) (b) Major Accomplishments Expected During the Next 2 Years:

Continued support for academic programs as needed as well as possible funding for new needs. Continue to provide a large portion of faculty salaries. Approximately 77% of RGC Institutional Enhancement funding has been allocated for faculty salaries in the FY 2013 budget. Funding for facilities leases will be continued to ensure appropriate facilities are provided. Distance learning initiatives and programs have served SR-RGC well and due to aging equipment upgrades will be essential during this time period through may also need to be funded from this special item .

#### (4) Funding Source Prior to Receiving Special Item Funding:

1998 & 1999 Academic Research Support \$16,116 Academic Program Development \$394,327 Scholarships \$24,637

(5) Formula Funding: N/A

(6) Non-general Revenue Sources of Funding:

N/A

(7) Consequences of Not Funding:

#### 741 Sul Ross State University Rio Grande College

Several of the items funded by this special item may be eligible for formula funding; however, the formula does not generate sufficient funds for small institutions like SRSU-RGC to enable it to properly fund these initiatives, thus the reason for the special item . The ability of SRSU-Rio Grande College to develop new technology initiatives, develop new academic programs, strengthen existing programs, comply with federal and state mandates and reporting requirements, deliver excellent customer service, and provide appropriate salaries would be greatly impaired, reducing the ability to provide needed service to the region . Further reductions in this item will have a critically negative drastic effect on our ability to properly fund and continue several programs. 77% of the funds provided through this special item are used to fund faculty and staff salaries not covered by the formula funding .
