Administrator's Statement

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

756 Sul Ross State University

For more than 90 years, Sul Ross State University - Alpine has been a regional university serving the educational needs of approximately two - thirds of the border region of Texas with Mexico. Our service region extends approximately 600 miles from Webb County on the south to El Paso County on the north and encompasses approximately 61,000 square miles. The population of this vast region approximates 479,436, (86 percent of whom are Hispanic). The demographic projections indicate that this percentage will continue to grow steadily during the foreseeable future. About 48 percent of the students at Sul Ross - Alpine are Hispanic, and over 60 percent are first generation college students. More than 80 percent of our students demonstrate financial need. According to Hispanic Outlook Magazine, Sul Ross ranks 86th in the nation in master's degrees awarded to Hispanics.

Sul Ross – Alpine faces many challenges that are unique in higher education. Persistent regional poverty, the first generational nature of our students, and difficulties balancing work and familial obligations with the demand of student learning have resulted in comparatively lower retention and graduation rates than in other colleges. Furthermore, without any community colleges in close proximity (the closest to Alpine are Odessa College and Midland College at 140 and 160 miles, El Paso Community College at 220 miles, and Southwest Texas Junior College in Uvalde at 272 miles) we find that many of our students who might have benefitted from such preparation cannot do so. We, thus, continuously face the challenge of serving the needs of students who are transitioning into multiple levels of higher education.

Recognizing that affordability is a major barrier to access for these underserved students, Sul Ross – Alpine has focused efforts to maintain costs to students at low levels by operating as efficiently as possible. Sul Ross State University is ranked fourth in the list of public universities with the lowest in-state tuition and fees, according to a recent U.S. News and World Report article. A January 2014 article by Kelsey Sheehy, "10 Low-Cost Public Colleges for In-State Students," listed Sul Ross as the fourth-lowest-priced for in-state tuition and fees during the 2013-2014 academic year.

In order for Sul Ross State University – Alpine to compete with many state colleges, we have been working proactively to seek additional resources from federal agencies to increase the enrollment, retention, and graduation rates of our students. Our student service grant area continues to thrive as evidenced by the number of federal grants that have been awarded to Sul Ross – Alpine. Sul Ross – Alpine has received federal funding from the Department of Education through several student service grants. Our students have participated in federal grant programs including: Upward Bound, Talent Search, Gaining Early Awareness and Readiness for Undergraduate Programs (GEAR UP), and the TRIO McNair Scholars Program. Each of these grants have helped Sul Ross – Alpine positively impact enrollment, retention rates, student success rates, and provide services to students and future students who might not otherwise have access to them. In addition, these grants also prepare students for undergraduate, graduate, and doctoral programs.

As a Hispanic Serving Institute, Sul Ross – Alpine was also awarded two Title V HSI grants that will boost the number of graduates with knowledge for careers in Science, Technology, Engineering, and Mathematics (STEM). We anticipate that increased enrollment and graduation rates in these areas will assist high technology development throughout the state of Texas.

During the current biennium, we have continued to implement recommendations from market research, adding new programs and strengthening others. Sul Ross State University has also worked to meet regional service needs through its Minority and Small Business Development Center, Law Enforcement Academy, Center for Big Bend Studies, the Museum of the Big Bend, Archives of the Big Bend, and through Chihuahuan Desert Research. Our Centennial School Office building is at full capacity with many state and other service agencies now occupying the facility and in effect providing "one stop shopping" in this region for many state services.

Resources provided through the last legislative session have been utilized to meet critical needs. A ten percent reduction to our appropriations would be devastating. Such a loss in funding could force Sul Ross State University to close academic and student service programs. It also would almost certainly cause faculty and staff work force reductions and severely impact our already underserved student population. Declining populations in rural Texas, adverse agricultural environments, employment opportunities in the oil fields, and continued budget reductions are emphasizing the need for strong retention and recruiting programs. We are committed to focusing

resources in these areas as much as possible to achieve and sustain needed enrollment growth.

Sul Ross State University, as is the case with most other institutions in the state, continues to see rising revenue losses from Hazelwood exemptions. Our most current annual loss is \$410,230. Sul Ross – Alpine appreciates the reimbursement of \$63,633 provided to offset some of these losses and would support the continuation of these reimbursements at increased levels.

We have presented three exceptional item requests, (1) Lobo Den Freshmen Center (2) Renovation and Modernization of Educational and Related Facilities and Infrastructure – TRB and (3) Briscoe Administration Building Renovation - TRB.

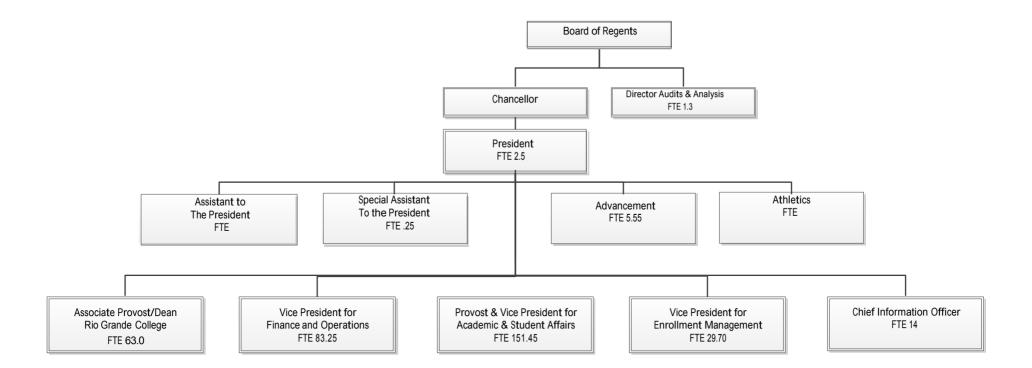

The Lobo Den Freshmen Center request is for funding to continue this retention program designed to improve freshmen and transfer fall-to-fall retention rates via mentoring and student success programs. The Center is an important tool needed to address minority (primarily Hispanic), first generation, and low income student needs, the majority of Sul Ross State University's student population. This Center was established by a Title V DOE grant which expires in September 2014. The funds requested, \$268,950 in 2016 and \$282,397 in 2017, would allow it to continue at full capacity.

The Renovation and Modernization of Educational and Related Facilities and Infrastructure TRB request is for debt service on bonds to fund identified Campus Master Plan projects primarily related to campus access and to fund deferred maintenance projects on campus including roof repairs, replacement of electrical service switchboards, fire alarm upgrades, exterior building maintenance, asbestos abatement, street/parking lot repairs. The Master Plan projects comprise phases II and III and are consistent in concept and type, tying the East campus to the West campus with improved vehicular and pedestrian access. The construction of a visitor center is also included in this project. All of the projects included within this request are intended to enhance enrollment and retention. The total project cost is estimated at \$7,800,000 with debt service requested at \$678,600 for FY2016 and \$678,600 for FY2017.

The Briscoe Administration Building Renovation TRB request is for debt service on bonds to fund the complete renovation of this facility. This building was the first building constructed on campus in 1920 and has received minor renovations and is now in line for a complete renovation. Both interior and exterior renovations are planned for space utilization, life safety code and ADA compliance. The total project cost is estimated at \$8,452,000 with debt service requested at \$735,324 for FY2016 and \$735,324 for FY2017.

Our first priority is to provide affordable, high quality education to the citizens of the vast rural underserved border region of Texas. As a major employer in the Big Bend area, we are also committed to providing access to services that meet the needs of our community. We are deeply grateful for your continued support of our institution and for your efforts to strengthen higher education in Texas. Through your support, we have continued to effectively serve a population that might not otherwise have access to quality higher education. Once again it is my pleasure to update you on our programs and services at Sul Ross State University and to present our request. Thank you in advance for your hard work on behalf of the State of Texas and for your consideration for our university.

STRATEGY DESCRIPTION AND JUSTIFICATION:

This is a non-formula strategy that provides funding for salaries and other expenses for the following activities operated in connection with instructional programs: Science Analytical Laboratory, Agricultural and Natural Resource Science Meats Laboratory, and the University Ranch. These activities give students a hands-on experience in addition to the traditional classroom instruction thus better preparing students for entering the workforce.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

This strategy has not previously received general revenue funding. The activity generated income is insufficient to fully fund these critical operations. In order to maintain the activities, Other Educational and General Income must be used to fund these programs.

The ability to continue the current level of service is hindered without this funding. The University has begun several initiatives aimed at improving enrollment and retention including a new marketing campaign to attract students most likely to succeed at SRSU. The University expects to experience steady enrollment as a result of these initiatives. Funding our exceptional item Lobo Den Freshmen Center Program would definitely help in this. We believe the university will establish and continue a pattern of growth.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The Infrastructure Support formula distributes funding associated with plant-related formulas and utilities. This formula is driven by the predicted square feet for universities' educational and general activities produced by the Coordinating Board Space Projection Model. The portion of the formula related to utilities is adjusted to reflect differences in unit costs for purchased utilities, including electricity, natural gas, water and wastewater, and thermal energy.

STRATEGY DESCRIPTION AND JUSTIFICATION:

This is a non-formula general revenue strategy that provides funding for the debt service tuition revenue bonds issued by the Texas State University System in 1993, 1998 and 2002 on behalf of Sul Ross State University. Proceeds from these bonds have been used to fund major repairs, renovations, and conversions to Lawrence Hall, Graves-Pierce Complex, the Wildenthal Library, Ferguson Hall, Gallego Center, Warnock Science Building, Turner Range Animal Science Center, the Centennial School and the old university center.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

The 73rd, 75th, and 77th Legislatures provided authorization for the issuance of these tuition revenue bonds. Sul Ross State University's ability to meet its debt service requirements relative to these bonds is contingent upon funding for this strategy. If tuition must be used to fund this, an increase in GR appropriations will be needed to replace the other E & G income normally used to fund operations. As directed, funding for this strategy is requested at 100% of the actual debt service needs for 2016 and 2017.

Increasing student expectations and needs require the utilization and maintenance of quality facilities and infrastructure. This funding is critical to small institutions and particularly to SRSU – Alpine because our assignable space is above the space projected by the THECB space model and formula generated maintenance funding is insufficient. This strategy helps supplement the funding generated by the infrastructure support formula.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The Museum of the Big Bend is an educational component of Sul Ross State University closely related to the Center for Big Bend Studies. The Museum Director reports administratively to the Provost and Vice President for Academic and Student Affairs. Although the Museum is a major tourist attraction in the Alpine Community, its primary purpose remains to support the academic programs of the University. The mission of the Museum is to preserve historical materials relating to the Trans-Pecos area of west Texas and to provide educational programs and research opportunities to the University students and faculty as well as visitors to the region. The Museum is the primary depository for cultural and historical artifacts from throughout the region. These documents and artifacts are important sources of research opportunities for students in both graduate and undergraduate programs.

Major accomplishments to date and expected over the next two years:

- (1) (a) Major Accomplishments to Date: The Lobo Den serves primarily undergraduate students. The center houses an Executive Director, Associate Director, Advising/Retention Specialist, and Data Tracking / Administrative Assistant. The center provides advising for all new incoming freshmen, transfer students and 30 hours, undeclared students and TSI non- compliant students. Mandatory Advising for all students was implemented in Fall 2013. The center also provides New Student Orientation in the summer, and at the beginning of the Fall and spring. Lobo Days is a 3 day intensive welcome orientation at the beginning of each semester. The First Year Seminar course was implemented in Fall 2013 for all new incoming students. The Lobo Den coordinates this program, obtaining instructors, training instructors, registering students in the course. In Fall 2013 22 sections of the course were offered, in Fall 2014 the course is being added to all degree plans and 22 sections of the course are scheduled.
- (1) (b) Major Accomplishments Expected During the Next 2 Years: The Lobo Den will continue to provide advising services to new incoming students as well as transitioning them successfully to their major advisors in their 3rd semester. The center's goal is to improve the delivery of advising and to be more proactive in advising students through the core curriculum. The Lobo Den's goal is to increase retention from fall to fall. The Lobo Den will continue to provide orientation programs for all new incoming students, and will continue to coordinate the First Year Seminar program.

DESCRIPTION / JUSTIFICATION:

Renovation and Modernization projects include roof repairs, replacement of electrical service switchboards, fire alarm upgrades, exterior building maintenance, asbestos abatement and street and parking lot maintenance. Campus Master Plan projects consisting primarily of infrastructure projects are also included. The Vistor Center project consist of a new building to welcome and serve vistors to the Sul Ross campus. All of the projects included within this master project are intended to enhance enrollment and retention.

EXTERNAL/INTERNAL FACTORS:

Major accomplishments to date and expected over the next two years:

Since the project was requested the last time, we were able to address 2 roofs and one electrical switchboard. This request still includes 5 building switchboards and 7 roofs. All other projects included still remain.

The Campus Access project has now moved into phase II and phase III. We were able to address the minor projects in phase I using HEAF funds. These factors combined result in the change of scope and cost.

B. Assessment of Fiscal Year 2012 - 2013 Efforts to Meet HUB Procurement Goals

Attainment:

The agency attained or exceeded one of three, or 33%, of the applicable agency HUB procurement goals in FY 2012. The agency attained or exceeded on one of three, or 33%, of the applicable agency HUB procurement goals in FY 2013.

Applicability:

The "Heavy Construction," "Building Construction," and "Special Trade Construction" categories are not applicable to agency operations in either fiscal year 2012 or fiscal year 2013 since the agency did not have any strategies or programs related to construction.

Factors Affecting Attainment:

In both fiscal year 2012 and 2013, the goal of the "Other Services" category was not met since the contracts in that category limited the agency to contracting with non-HUB vendors.

"Good-Faith" Efforts:

The agency made the following good faith efforts to comply with statewide HUB procurement goals per 34 TAC Section 20.13(d):

- -ensured that contracts specification, terms, and conditions reflected the agency's actual requirements, were clearly stated, and did not impose unreasonable or unnecessary contract requirements.
- -provided potential bidders with a list of certified HUBs for subcontracting, and
- -prepared and distributed information on procurement procedures in a manner that encouraged participation in agency contracts by all businesses.
- -we have also encouraged local HUB vendors to become certified.

1 Workers' Compensation Insurance

Category: Administrative - Operating Expenses

Item Comment: This strategy provides for the general revenue portion of the Workers Compensation Assessment by the SORM. Because the general revenue appropriation is not sufficient to fully fund the historical assessment, SRSU-will need to use Other Educational and General Income or Designated Tuition to cover the premium. If this funding is reduced and increases in assessment costs are required, Designated Tuition would be needed to replace funding.

2 Chihuahuan Desert Research

Category: Programs - Service Reductions (Contracted)

Item Comment: This strategy allows SRSU to conduct basic and applied research. Much of this accomplished through the use of Graduate Research Assistants. Loss of this funding would result in the elimination of a .25 graduate assistant FTE per year. In addition our ability to provide assistance to larger projects with federal funding opportunities would be impacted.

3 Center for Big Bend Studies

Category: Programs - Service Reductions (Contracted)

Item Comment: This strategy provides funding for the support of archeological research in the Trans-Pecos region of Texas. This funding is significant to the Center's ability to conduct its projects as well as leverage private gifts and contracts. Loss of this funding would negatively impact the Center's ability to continue to receive this support.

Category: Programs - Service Reductions (Contracted)

Item Comment: This strategy provides funding for the support of the preservation of historical and artifacts relating to the Trans-Pecos region of Texas as well as other areas. Loss of this funding would necessitate the reduction or possible elimination of public educational programs as well as impact the Museum's ability to attract private support.

6 Criminal Justice Academy

Category: Programs - Service Reductions (Contracted)

Item Comment: This strategy provides funding for the provision of continuing education and other services to the law enforcement community throughout west Texas. SRSU is a primary resource available to agencies in the area for obtaining needed training and education at an affordable cost. Loss of this funding would necessitate the reduction of this critical training to area law enforcement agencies.

Category: Programs - Service Reductions (Contracted)

Item Comment: This strategy provides funding for the preservation of historical artifacts and documents of the Big Bend area of Texas. The Archives provides a valuable resource to researchers in the area. Loss of this funding would negatively impact the ability of the Archives to continue this level of services to the region and would likely result in the loss of a .25 FTE.

9 Institutional Enhancement

Category: Programs - Service Reductions (Contracted)

Item Comment: This strategy is used to supplement several items which may be eligible for formula funding; however, the formula does not generate sufficient funds for small institutions like SRSU-Alpine to enable it to properly fund these initiatives, thus reliance on this special item. The ability of SRSU-Alpine to continue at current service levels will be greatly impaired by this reduction. Because about 75% of this funding is used for faculty and staff, it is anticipated that this reduction might result in a loss of 4 FTE's per year.

Project Description

The Briscoe Administration Building Renovation request is to fund the complete renovation of this facility. This building was the first building constructed on campus in 1920 and has received minor renovations and is now in line for a complete renovation. Both interior and exterior renovations are planned for space utilization, life safety code and ADA compliance.

Schedule 9: Special Item Information

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

756 Sul Ross State University

Special Item: 1 Archives of the Big Bend

(1) Year Special Item: 1998 Original Appropriations: \$50,000

(2) Mission of Special Item:

To collect, preserve and make available for research purposes the archival record of the Big Bend/Trans-Pecos region of Texas and Sul Ross State University. The Archives of the Big Bend functions as the repository for primary materials documenting a diverse history and culture and supports the academic mission of the University as a department of the Library

(3) (a) Major Accomplishments to Date:

Use of the collections continues to increase. A growing number of Sul Ross classes and students access materials for class projects and assignments. McNair scholars have made extensive use of collections, and the Archives is in the final stages of documenting by oral history the local wildfires of 2011. In addition to the University community, the collections are accessed by a variety of scholarly, academic, private, and governmental individuals and entities.

Funding cuts resulting in frozen staff positions have continued to curtail processing and collecting activities; staff time is spent predominately on public service duties. Despite limitations, desirable and valuable collections continue to be acquired. Due to reputation and location, the Archives is the repository of choice for many donors. Staff members facilitate donations of collections in addition to their regular duties. Working with the Brewster and Presidio County Historical Commissions, the Archives received a major donation of materials documenting the early history of Presidio County, consisting of over 100 maps and about 115 cubic feet of manuscript materials. Another major collection was received from Amparo Fuentes, a longtime educator in Pesidio. The material documents Ojinaga and environs (her father was mayor of Ojinaga) and the history of Shafter. We received several hundred maps from Richard Allen of Allen Realty, a long-time Alpine realtor and land developer.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

With no additional funding cuts the Archives should be able to continue to provide quality services to constituents and acquire materials albeit with limitations. Emphasis will continue to be placed on needs of Sul Ross students, faculty and staff as well as public school students and the Junior Historian program. We are planning to complete a major audit of the books in the Archives collection. We will complete indexing of the the oral history collection of the 2011 local wildfires. We plan to begin the initial inventory of the Presidio County and Amparo Fuentes collections, as well as other recently acquired materials. We will continue the inventory of the extensive University Photograph Archives and place it in archival housing. Archival housing has been acquired to allow continued transfer of manuscript materials to secure, preservation assured housing. Continued acquisition and processing of materials enhances the visibility and effectiveness of operations as well as providing "new" materials for patrons' use. If workflow permits is it planned to convert more holdings to digital format.

756 Sul Ross State University

Special Item: 2 Center for Big Bend Studies

(1) Year Special Item: 1994 Original Appropriations: \$15,000

(2) Mission of Special Item:

To conduct historical, archaeological, and cultural anthropological research in the Big Bend and eastern Trans-Pecos region; to facilitate and encourage research within the region in these areas by students and scholars; and to disseminate findings from the program to the scientific community, students, and the general public through presentations, web exhibits, and publications, including an annual journal on the history and culture of the region. In addition, the CBBS develops and oversees anthropology classes at the university, maintains a regionally focused in-house research library that includes original primary documents pertaining to the history and archaeology of the region (established through donations), and conducts archaeological cultural resources management (CRM) or clearance projects for private firms and local, state, and federal agencies.

(3) (a) Major Accomplishments to Date:

This special item supports research and educational programs in history and archaeology focused on Trans-Pecos, Texas with an emphasis on the Big Bend. Through its CRM program that was established in 1995, the CBBS has provided critical project-clearance services to governmental and private entities across the region. CRM projects include a 10-year archaeological survey in Big Bend National Park, archaeological surveys in Big Bend Ranch State Park, an overview and assessment of the archaeology of Lake Meredith National Recreation Area, and testing and mitigation of a site along FM 170 for the Texas Department of Transportation. In 2004, the CBBS launched an important program of archaeological and historical research (the Trans-Pecos Archaeological Program or TAP) to address major shortcomings in the regional database and has successfully completed 10 years of groundbreaking research through this program, including discovery and testing of the oldest intact site (ca. 11,000 years old) yet found in the region. The CBBS also has provided hands-on training for students through archaeological field schools and various projects; collaborated with the Museum of the Big Bend on a significant exhibit; and provided support to the State Junior Historians program, two international Research Associates, and two doctoral students (from Texas A&M and Texas State University). Over the past two years, the CBBS has issued three significant publications in the fields of history and archaeology.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

During the next two years we expect to continue to make measureable progress in all of the areas discussed above, with emphasis on research, student training, and both scholarly and popular lay-publications. Research conducted through TAP will continue to provide significant insights into the rich prehistory and history of the region. A major contribution to regional scholarship scheduled for completion in FY 2014 is the final report for the CBBS's long-term survey in Big Bend National Park. Through the use of Geographic Information System (GIS), data generated by the project, coupled with extensive environmental data, will allow for the creation of a predictive model for site occurrence.

15 \$	7,500	\$20,000	\$220,000	\$130,000

(7) Consequences of Not Funding:

This item is not available for formula funding. Without state funding, the CBBS would essentially be unable to function. State support for the CBBS provides the foundation and infrastructure upon which grants, contracts, and private donations are received. Without state funding our ability to attract these external funds would be so severely constrained that the CBBS and TAP would likely cease to exist. Further, without state support, the substantial investment the CBBS has made in equipment (such as vehicles, an assortment of mapping instruments, and photographic equipment) and personnel would be jeopardized if not lost completely. Importantly, through TAP, the CBBS has been able to attract a top-notch staff of archaeologists who would be very difficult to replace in this rural and far - flung area of the state. The CBBS is an extremely valuable resource whose benefits extend beyond the confines of the university to provide an array of public services for the entire region. Through our original research, education, and publications, our reach extends across the region and serves to reflect well upon SRSU, the Texas State University System, and the State of Texas. Because there are no other similar entities anywhere in the Trans - Pecos, to lose the CBBS would eliminate or greatly diminish cultural studies in the entire region.

756 Sul Ross State University

Special Item: 3 Sul Ross State University Museum

(1) Year Special Item: 1972 Original Appropriations: \$25,000

(2) Mission of Special Item:

To preserve historical materials relating to the Trans-Pecos area of West Texas and to provide educational programs and research opportunities to the University students and faculty as well as visitors to the region. Provides a major teaching tool for several areas of the University provides a research facility for cultural researchers and provides a public service for area schools and visitors to the region.

(3) (a) Major Accomplishments to Date:

With over 22,000 visitors, the Museum of the Big Bend is a premiere attraction in Alpine and brings visitors from across the country and around the world to Sul Ross State University. Over the past two and half years, the museum's Yana & Marty Davis Map Collection has been 80% accessioned and digitized and over 48 maps are available for online use and study. The Museum acquired a unique collection of Mexican folk-art known as The Betty Byerley Retablo Collection. The collection was on exhibit during summer 2010 and has traveled to various museums on exhibit including the Dallas Latino Center. The Museum celebrated the 28th Trappings of Texas event in 2013, the longest running Western art and gear show in the country. The event raises funds support exhibits and programs. In 2011, the museum mounted The Lost Colony: Texas Regionalist featuring the artists from the Sul Ross Art Colony that ran from 1930 to 1950 from which some of the most well - known Texas regionalist were trained. The Museum of the Big Bend Education Program conducted year - round classes for children including after-school, Saturday and Summer Art Camp programs. Over 1,500 students from schools throughout the region toured the museum in the spring of 2014. Additionally, the museum expanded the Education program to include adult art classes. The exhibits at the Museum of the Big Bend have received recognition with awards from the Texas Historical Commission, Preservation Texas, and Humanities Texas.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

The Museum of the Big Bend will continue as a tourist destination as well as an important educational resource to public school students, Sul Ross State University students, and the general public. The Museum's Education Program will expand the adult program with additional classes including: drawing, watercolor, oil, pottery, and pastel classes, as well as other areas of interest to include philosophy and theology. The museum will expand the children's art program with additional themed events. Additionally, the museum plans on expanding the Education program with outreach into the public schools. The museum will host the 29th Trappings of Texas and expects to receive record numbers of visitors. The museum will continue to expand its historically significant collections; expand educational and public outreach; provide temporary educational exhibits; and promote research of museum collections.

Special Item: 4 Big Bend Minority and Small Business Development Center

(1) Year Special Item: 1994 Original Appropriations: \$100,000

(2) Mission of Special Item:

To work cooperatively with the SBDC through the University of Texas at San Antonio and to work with minority and small businesses in an effort to enhance economic development in the Big Bend region of Texas. This item strengthens the public service function of the University and strengthens the economic health of the Big Bend region.

(3) (a) Major Accomplishments to Date:

Since the BBRMSBDC was established in 1993, the program has enabled more than 5400 clients to establish and strengthen businesses in the program's service area. Training has been provided in business skills via more than 500 workshops spread throughout the BBRMSBDC's service area. As a direct result of the program's efforts, BBRMSBDC clients have received more than \$125,000,000 in new capital injections, helping to retain more than 1200 jobs and create an additional 1500 jobs. As a result of the exceptional work done by the Center, a productivity award was given by UTSA in 2013 for surpassing \$22,000,000 in capital infusion in one year.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

The BBRMSBDC is expected to continue its efforts and successes in FY14 and FY15, leading to the establishment of another 25-35 new businesses and creation of an additional 75-100 new jobs.

Special Item: 5 Chihuahuan Desert Research

(1) Year Special Item: 1984 Original Appropriations: \$47,960

(2) Mission of Special Item:

Conduct basic and applied research in agriculture, biology, and geology while utilizing the natural laboratories afforded Sul Ross State University by its unique location. This supports the mission of the institution because it strengthens the ability to do research in the natural science areas in the Big Bend Region and provides seed money for federal funding.

(3) (a) Major Accomplishments to Date:

This special item supports scientific research projects which increase knowledge of the agricultural economy, geology, biology, and ecology of the Chihuahuan Desert, a region of international consequence. Typically, five to ten such projects are funded each year. Each project receives a small amount of funding (\$7,500) to support a graduate research assistant and some travel and supplies. A number of these projects have developed into much larger projects receiving external grant funding. Student researchers are the primary beneficiary of these monies.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

During FY 2015 and FY 2016 we expect to continue the pattern of research projects described above.

Special Item: 6 Criminal Justice Academy

(1) Year Special Item: 1994 Original Appropriations: \$107,500

(2) Mission of Special Item:

To provide continuing education and other services to the law enforcement community throughout West Texas. Strengthens both the teaching mission and the public service mission.

(3) (a) Major Accomplishments to Date:

The goal of the Sul Ross State University Law Enforcement is to provide the highest quality training possible for the 17-county region in West Texas. To accomplish this goal, we offer the Basic Peace Officer course, mandated in-service training for licensed peace officers and county corrections officers, and provide specialized training in topics requested by area law enforcement agencies. Currently, we are the only licensed academy between El Paso and Odessa, Texas to meet the training needs of academy cadets and licensed officers in the region. The academy has three Basic Peace Officer courses annually; two 40-hour a week classes in Alpine and one 16-hour a week class in Fort Stockton. During fiscal year 2013, the academy had 21 cadets successfully complete the Basic Peace Officer course and all 21 passed the State licensing exam. To the benefit of the Permian Basin and Trans Pecos regions, the SRSU and Midland College have worked collaboratively and share costs associated with the academies in Alpine and Ft. Stockton. The academy has successfully secured necessary equipment for training and no new major equipment acquisitions are planned.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

The collaborative efforts between Midland College and Sul Ross State University, Alpine are expected to continue. With the increase in tuition in Fall 2012, tuition costs are expected to be held constant. With an increase in federal law enforcement in the region, we expect the academy to benefit from an increasingly positive relationships with law enforcement agencies in the region. We anticipate the enrollment in the academy steadily increasing as the reputation of the academy has improved greatly.

Special Item: 7 Institutional Enhancement

(1) Year Special Item: 2000 Original Appropriations: \$2,532,634

(2) Mission of Special Item:

To enhance institutional funding for existing programs, faculty salaries, research scholarships and general university support. Allows development of new academic programs and strengthens and improves existing programs.

(3) (a) Major Accomplishments to Date:

A wide variety of activities have been supported using these funds. Most have been directly related to academic programs and academic infrastructure development. Included are funding most academic units, the Academic Center for Excellence, aimed at assisting students with academic difficulties and improving retention and graduation rates, graduate assistants, Information Technology, summer faculty salaries, ADA implementation, scholarships, and the increasing costs of utilities for E&G facilities.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

Continued support for academic programs as needed as well as possible funding for new needs. Distance learning initiatives and upgrades will also need to be funded from this special item. Funds may also be used for enhancements to the recruiting and marketing programs.

(7) Consequences of Not Funding:

This is a special item appropriation created by the 76th Legislature. This item initially provided new funding of \$1 million to each Higher Education Institution for each year of the 2000 – 2001 biennium. In addition, in FY 2002 – 2003, SRSU received an additional \$1.5 million per year, plus \$500 thousand in FY 2014 and FY 2015. This strategy also provided replacement funding for several different special items. This item is extremely critical to the wellbeing of the University and any reduction would have a significant effect on the University's programs and services particularly as they relate to personnel. Salaries comprise 81% of the utilization of these funds with 40% for faculty salaries.

Special Item: 8 Museum of the Big Bend

(1) Year Special Item: 1972 Original Appropriations: \$50,000

(2) Mission of Special Item:

The Museum of the Big Bend is an educational component of Sul Ross State University closely related to the Center for Big Bend Studies. The Museum Director reports administratively to the Provost and Vice President for Academic and Student Affairs. Although the Museum is a major tourist attraction in the Alpine Community, its primary purpose remains to support the academic programs of the University. The mission of the Museum is to preserve historical materials relating to the Trans-Pecos area of west Texas and to provide educational programs and research opportunities to the University students and faculty as well as visitors to the region. The Museum is the primary depository for cultural and historical artifacts from throughout the region. These documents and artifacts are important sources of research opportunities for students in both graduate and undergraduate programs.

(3) (a) Major Accomplishments to Date:

The 3-Phase Museum of the Big Bend Renewal Campaign was completed. Phase I – Building Renovation, Phase II – Exhibits and Phase III – Education Programs totaled \$4.6 million. The Renewal Campaign allowed the restoration of the old University Center into the new home of the Museum. With over 22,000 visitors, the Museum of the Big Bend is a premier attraction in Alpine. Over the past two and half years, the museum's Yana & Marty Davis Map Collection has toured the state of Texas and was on exhibit in New York City.
