

# Application for Sul Ross State University's 2024 Geology Field Camp (GEOL 4601)

## Contact information- Please print everything CLEARLY

|                  |  |
|------------------|--|
| Name             |  |
| Current school   |  |
| Email address    |  |
| Phone number     |  |
| Physical address |  |

## Prerequisites (Unofficial transcripts are due with application.)

| Course name                         | Course number | Semester* | Grade | Instructor's name |
|-------------------------------------|---------------|-----------|-------|-------------------|
| Structural Geology                  |               |           |       |                   |
| Sed/Strat                           |               |           |       |                   |
| Petrology/Petrography/<br>Lithology |               |           |       |                   |

**\*If you are currently in a prereq, a written note from your instructor with current grade is due 3-1-24.**

## Physical Fitness (medical approval required by 3-1-24)

I certify that by 3-1-24 I will return a physical examination form (provided by SRSU) signed by an MD or CNP that proves my physical ability to hike at elevations of 7,000-9,000 ft amsl on slopes of 10 to 30° carrying a ~40-lb backpack daily for 8-hour field days over a 4-week period in 90 to 110-degree temperatures. Failure to provide this form results in my losing my place in the course. Dishonesty on this form results in my losing my place in the course.

(Sign & date) \_\_\_\_\_

Once you are notified that you are accepted into SRSU Geology field camp 2024: If you are not a Sul Ross student, visit [applytexas.org](http://applytexas.org) and apply as a transient student for Summer, 2024. Registration for all students is open later in the semester but this is the first step and you should have it done early. **Course dates are May 30 - July 3, 2024.**
