The image shows a screenshot of the Tutor.com 'Written Feedback' form and a sample feedback report. The form is titled 'Written Feedback' and includes a navigation bar with 'Drop Off Your Work' highlighted. The form asks for the topic, draft due date, final due date, paper topic, writing process stage, and assignment details. The feedback report, titled 'Your Drop Off Essay Review Feedback', shows submission details and a rubric for '1) Thesis Statement: Clear and focused thesis'. The rubric has five columns: 'Not Applicable', 'Beginning', 'Developing', 'Accomplished', and 'Exemplary'. The 'Developing' column is highlighted in yellow. Below the rubric, there is 'Thesis statement target feedback' and 'Thesis statement help resources'.

1) Thesis Statement: Clear and focused thesis

Not Applicable	Beginning	Developing	Accomplished	Exemplary
A thesis is not necessary for this submission.	The thesis does not appear to be relevant, is not clearly defined, or lacks focus.	The thesis statement is present and clear. The focal point is not consistently maintained throughout the paper.	The thesis states the position, premise, or hypothesis, and is the focal point of the paper for the most part.	The thesis clearly and concisely states the position, premise, or hypothesis and is consistently the focal point throughout the paper.

Thesis statement target feedback:
Pretty good job on your thesis statement. I can tell what your overall message/theme is of the writing, but you may want to consider revising your thesis statement a bit to improve the sentence structure, fluency, and clarity. I gave a suggestion in the word document.

EARLY ALERTS

Prerequisite Knowledge

- Student came into the session lacking the prior knowledge they would need to solve the problem they came in with
- Tutor needs to address this prior knowledge before they can help the student with their request

Frequent Subject Request

- Student has requested the same topic 7+ times in 7 days
- This alert is automatically triggered by our system

Content Mastery

- By the end of the session the student did not achieve understanding of the concept.

Unusually Long Session

- If a session goes 75% longer than the average for that subject, our system will automatically trigger an alert

Writing a Paper? Tutor.com™ can help.

Get help with your next assignment from our expert writing tutors.

Log into your Tutor.com account to connect with a tutor for feedback in real time with a **Live Session** or submit your work to Tutor.com's **Drop-Off Review** service. Where you are in the writing process will determine the best and most effective option for you.

- BRAINSTORMING**
A Live Session will give you the best results.
Connect with a tutor to:
 - discuss ideas that will form the content of your essay;
 - work through questions to gain a better understanding of your subject; and
 - research credible sources and gather information.**Helpful hint:**
As you work with your tutor, share all of the information that you have on your assignment to help ensure a productive tutoring session.
- ORGANIZING/OUTLINING**
We recommend a Live Session, but you can also choose Drop-Off.
Your tutor will help you to:
 - organize your thoughts and ideas and develop a clear plan for your essay.**Helpful hint:**
A Live Session works best if you have questions about organizing your essay. If you need feedback on a draft or outline, you can choose either option. For Drop-Off, indicate whether you will be turning in an outline as its own assignment or if you would simply like feedback before you start drafting your essay.
- DRAFTING**
Choose a Live Session OR Drop-Off Review.
Your tutor will help you to:
 - compose a strong thesis statement and a sound conclusion;
 - create unified, cohesive paragraphs in the body of your essay; and
 - guide your revisions as you work on your next draft or final version.**Helpful hint:**
If you choose Drop-Off, make sure to fill out the pre-session form with the assignment details so your tutor can give you the best advice. Include any necessary revisions from a prior drop-off session before submitting again.
- FINE-TUNING**
Choose a Live Session OR Drop-Off Review.
Your tutor will help you to:
 - revise and edit your essay with additional guidance, and
 - proofread for errors to help you become a more independent writer.**Helpful hint:**
If you choose Drop-Off, make sure to fill out the pre-session form with the assignment details so your tutor knows how to give you the best advice.

Predictive Insights™ Data Analytics from Tutor.com

Spot struggling students sooner. Support them better.

It is no secret that many students are going to college unprepared for college-level coursework. Some lack the prerequisite knowledge they need to succeed. Others are non-traditional students returning after a long break from their formal education. Unfortunately, these at-risk students can be under the radar until it's too late.

OUR SOLUTION
Tutor.com's Predictive Insights Data Analysis™ provides early, actionable data to accelerate the intervention timeline. Over the course of each personalized tutoring session, our expert tutors determine if a student lacks prerequisite knowledge or struggles to master key content. With the help of Predictive Insights, you'll be able to identify these students too—earlier. We also derive insights from additional data points like frequency of use and length of tutoring sessions. This actionable data empowers institutions to intervene at the right time, thus improving student success and persistence.

HOW WE DO IT
Build on our Early Alerts

Set up customized alerts for the course persistence risk factors that matter to you most. When your students are flagged for Early Alerts, you can choose to receive notifications on your smartphone, allowing you to forward alerts to co-instructors and success coaches for immediate follow-up, or you can keep individual faculty members in the loop with customized course-level Early Alert subscriptions. Recipients can subscribe to Early Alerts by specific subject area, by student location, by course ID or for all students.

Early Alerts for key risk factors

- PREREQUISITE KNOWLEDGE: Did you pass a prerequisite knowledge?
- COURSE BY COURSE: Do you have enough credits to register for a course?
- UNUSUALLY LONG SESSIONS: Did you spend more time than your peers on the same subject?
- FREQUENT SUBJECT REQUEST: Did you request the same subject again and again in the same session?

Customizable subscriptions

- Department
- University
- Faculty
- Advisor/Coach
- Program

Real-time notifications

On-demand Reports
Track Early Alerts, review and replay individual tutoring sessions and analyze the specific topics and subtopics where students request help through a suite of powerful on-demand reports. With total transparency and customizable report access for everyone from instructors to institutional research, it's easy to put actionable data in the right hands to support student success.
