Request for Pickup/Delivery Form

Request for Pickup or Delivery

You can reserve an item for pickup at the Bryan Wildenthal Memorial Library in Alpine. If you're outside of Alpine, you can opt for home delivery via Direct Mail. We can also arrange for items to be delivered to an RGC campus hub in Eagle Pass, Uvalde, or Del Rio. You will be notified by your preferred method of contact when your item is available for pickup. If you have any questions, please contact the Library at srsulibrary@sulross.edu or 432-837-8123.

Note: Non-circulating materials, such as textbooks and reference materials cannot be requested for delivery.

Library Resources in Blackboard

We have recently implemented new tools in Blackboard that will allow you to integrate library resources into your courses.

You can embed a whole guide, single page, or box from a research guide into your Blackboard course. You can also embed lists of databases from our Databases A-Z list.

Direct links to resources like articles and eBooks can also be added.

Check out our Blackboard guide for detailed instructions!

Library Resources in Blackboard - Guide

Library Resources in Blackboard

Enter Search Words

This support guide demonstrates how to embed content from LibGuides into Blackboard.

- LibApps LTI Tool
- Embedding Process**
- Full LibGuide
- Single Guide Page
- All A-Z Databases
- Databases for a Specific Subject
- Single Database

Step-by-Step Process

1. Go to the section of your Blackboard course where you are going to embed the content. On the **Build Content** tab, select **Add SRSU Research Guide**.
2. Enter the name and description of the content you would like you embed.
3. After you click **Submit**, Blackboard will take you back to the course content area. The title and description of your embedded content will now be in your course.
4. Click on the title you just created and choose **Research Guides** from the LibGuides drop down menu.
5. Choose the type of content you want to embed in your course. For LibGuides content, you can choose from a full guide, a single page, or an individual content box.
6. For A-Z Databases content, you can choose from all databases, databases for specific subjects, individual databases, and new/trial databases.
7. When you have selected the content you would like to embed, click **Embed Content**. You will then be taken to a success message on a new page.
8. Now when you or your students click on the link in your Blackboard course, it will display the LibGuides content.

Step-by-Step Process (Blackboard Ultra)

1. Go to the section of your Blackboard course where you are going to embed the content. Click on the **(+)** symbol and select **Content Market**.
2. Click on the **(+)** symbol in the corner of **Add SRSU Library Research Guide**.
3. Edit the name and description of the content you would like you embed. It will default to **Add SRSU Library Research Guide**.
4. Click on the title you just created and choose **Research Guides** from the LibGuides drop down menu.
5. Choose the type of content you want to embed in your course. For LibGuides content, you can choose from a full guide, a single page, or an individual content box.
6. For A-Z Databases content, you can choose from all databases, databases for specific subjects, individual databases, and new/trial databases.
7. When you have selected the content you would like to embed, click **Embed Content**. You will then be taken to a success message on a new page.
8. Now when you or your students click on the link in your Blackboard course, it will display the LibGuides content.
