- Educational technology tools
- Accessibility best practices and compliance guidance

Need Help?
Schedule a consultation for
one-on-one support,
troubleshooting, training, and
guidance.

Accessibility Compliance Deadline

April 2027 Target: All online courses should achieve a 90% or higher Blackboard Accessibility Checker score.

Why it matters:

- Improves access for all learners
- Supports compliance with accessibility expectations
- Helps identify and correct common content issues
- Creates a more inclusive online learning environment

The Faculty Training Center can help faculty review courses, interpret checker results, and improve accessibility scores before the deadline.
